## MEET PENNY...

Penny came to us as an underweight and very ill rescue. She took the journey back to wellness under our watchful eye, amazing us with her resilience and strength at every turn. Penny defied the odds of conventional veterinarians and was brought to health using homeopathy, nutrition, herbs and an abundance of love and faith. Her journey is one of inspiration...for more, check our website [www.pennyspathpets.com](http://www.pennyspathpets.com)

## WHO WE ARE...

Andrea Peters is the founder of Penny's Path Pet Products.

Andrea has been part of the world of alternative modalities and nutrition for pets for many years, most recently as the Owner of a pet nutrition retail location in Cloverdale, BC and the Co-Founder of The Adored Beast Apothecary - a holistic animal supplement company. Andrea and her husband, Jeff are lucky enough to share their lives with a house full of very special rescue dogs who inspire them daily. For more information and to check out Andrea's Blogs, see our website at [www.pennyspathpets.com](http://www.pennyspathpets.com)

## PENNY'S PATH PET PRODUCTS

---

Created with inspiration from nature, each of our products are formulated with intent and consideration ... to enhance the life of your furry companion!

# HERBS USED IN OUR HAND MADE SOAPS

Our herbs are very carefully selected and contain certified pharmaceutical grade oil content. The herbs themselves come from Germany, we grind them ourselves.

Our soap is prepared using a Goat's Milk base which is highly moisturizing, is abundant in vitamins and minerals and has a neutral PH.

Please note that our soaps and rinses are not meant to “treat” or “cure” any conditions of the skin. If your pet has chronic skin issues, consider consulting with a holistic veterinarian who can help you to treat the gut health and balance microbiome, thus getting to the root cause.

Herbs can offer much relief and assistance along the way. This is why we have hand selected the botanicals we use in our products.

Herbs for Pets author Greg Tilford is also a consultant and teacher in the field of veterinary botanical medicine. His book is invaluable to pet owners and those of us in the field. I was fortunate enough to work with him during the founding years of Adored Beast Apothecary.

We are happy to announce that we are cruelty free.
